

# Cowater 160 Gallon (US) Sewage Haul Tank

**Note:** The Sewage Vacuum Blower shown in the photo is a separate Cowater component.

## **Description:**

This lightweight 160 gallon sewage haul tank and trailer is designed for use with Cowater's 120 gallon Flush Tank and Haul® model. The haul tank is mounted on a two wheel trailer with hitch for towing by ATV or snowmachine. It comes complete with fittings on top for filling and air suction. Fill hose and dump hoses are also included and carried on the hose rack.

## **Specifications:**

**Sewage Tank:** Capacity 160 gallons with two sight glasses mounted on rear.

Material: 14 gauge stainless steel.

Insulation: Optional

Fill port: 2 1/2" with camlock fitting.

Fill hose: 2 1/2" x 20 ft. long arctic hose with camlock fittings.

Dump port: 4" with reducer to 3" to match dump hose.

Dump hose: 3" x 7 ft. long arctic hose with camlock fittings.

**Trailer:** Steel frame trailer with hitch for 1 7/8" ball.

Two-1000 lb. torsion axles and wheels.

11" x 22" low pressure tires.

Overall weight: approx. 520 lb.

**Other Sizes:** Including 300 gallons and 600 gallons are available to match Cowater's larger systems. Larger sizes use tandem axles (4 wheels).
